

AW TEAM UP
EXCELLING TOGETHER

RECURRENT TRAINING

Leonardo Training Academy Flight Crew Recurrent courses are designed to meet regulatory requirements and the training requirements of the most demanding Helicopter Operators.

Leonardo Training Academy Flight training solutions are provided by experienced pilots and instructional engineers with the deepest knowledge of Leonardo Helicopters features, design characteristics, capabilities and commercial air transportation regulations. All our Recurrent Courses are delivered by highly experienced, fully qualified instructors whose certification process ensure the highest level of knowledge and standardization.

The AW-designed courseware is based on Instructional System Design approach and deep knowledge of the AW products. We should say no one knows AW products like AW Instructors.

Recurrent courses include ground and flight training.

The ground training portion can be delivered by Instructors, via Web Based Learning or CBT, depending on Customer's needs.

The flight training portion of the course can take place in flight simulator, always available thanks to our growing global network of training facilities and it fully prepares to a Proficiency Check.

The advantages of Leonardo Training Academy Flight

Crew Recurrent Training service are the following:

- OEM Instructors knowledge and experience;
- Widest range of Level D Full Flight Simulators;
- AW knowledge of the training device;
- Most Updated OEM Data available at the AW Training Network;
- Mutual benefit and sharing of the OEM techniques as well as operator feedback;
- Lowest cost for you as you can keep the crews where they provide the most value, revenue flying instead of instructing;
- Avoid cost of developing and maintain training programs and ATO qualifications.

Recurrent Duration:

Normally from 3 to 5 days, depending on regulatory approval requirements.

Type Rating Courses:

Helicopter models AW109, AW139, AW169, AW189, AB 212/412

Regulatory approvals:

EASA, the FAA, and many more worldwide regulatory approvals.
